#5

Computer Networking

Edited by

Robert P. Blanc
Ira W. Cotton

IEEE PRESS

A volume in the IEEE PRESS Selected Reprint Series, prepared under the sponsorship of the IEEE Computer Society.

Author Index

Abrams, M. D., 313
Aupperle, E. M., 281

Beere, M. P., 292
Blanc, R. P., 37
Butterfield, S. C., 287

Carr, C. S., 77
Carr, V. G., 77, 95
Chou, W., 49, 157, 164
Clark, G. E., 343
Cosell, B. P., 287, 319
Cotton, I. W., 215
Crocker, S. D., 77, 86
Crowther, W. R., 60, 117, 142, 182

Davies, D. W., 126
Davis, R. M., 3
Doll, D. R., 17, 206

Englebart, D. C., 228
Enslow, P. H., Jr., 327

Fano, R. M., 356
Feeney, G. J., 361
Frank, H., 8, 133, 157
Frisch, I. T., 333

Gerla, M., 111, 145, 157
Grobstein, D. L., 333

Hammer, C., 351
Hänsler, E., 137
Heafner, J. F., 86
Heart, F. E., 60, 182
Henderson, D. A., 246
Herzog, B., 339

Jasper, D. P., 44

Kahn, R. E., 60, 95, 117
Karp, P. M., 270
Kershenbaum, A., 197
Kevin, V., 206
Kleinrock, L., 299

Levin, J. B., 287

McAuliffe, G. K., 137
McGregor, P., 171
McKenzie, A. A., 182, 319
McQuillan, J. M., 108, 142, 182, 319
Metcalfe, R. M., 86
Mimno, N. W., 287

Naylor, W. E., 299
Norton, J. C., 228

Ornstein, S. M., 60

Postel, J. B., 86
Pyke, T. N., 37

Roberts, L. G., 27, 151

Schutz, G. C., 343
Stefferud, E., 333
Sullivan, N. C., 292

Thomas, R. H., 246
Thorpe, M. J., 319
Turoff, M., 241
Tymes, L. R., 274

Uhlig, R. P., 333

Walden, D. C., 60, 142, 182, 287
Watson, R. W., 228
Wessler, B. D., 27
Whitney, M., 206
Wilkov, R. S., 137
Williams, L. H., 260

Subject Index

A

Academic networks, 1, 259, 260, 260
Administrative data processing, 260
Advanced Research Project Agency
  see ARPA network
Algorithms, 108, 182
ANSI, 343
Architecture
  of networks, 36, 37, 49
ARPANET
  see ARPA network
ARPA network, 8, 27, 151, 182, 246, 259, 270
  component failures, 132
  direct terminal access, 280
  HOST-HOST communication, 77
  IMP, 60
  measurement, 298, 299
  network control center, 319
  network information centers, 228
  protocols, 59, 77, 86
  reliability, 142
  remote job entry, 86
  routing, 107, 108
  terminal access, 287
  terminology, 1
  traffic flow, 299
Augmented knowledge workshop, 228

C

CCITT, 343
Centralized computer networks
  reliability, 132, 137
Centralized data networks, 49
Clusters
  of terminals, 137
Commercial networks, 259
Communication networks
  cost reduction, 157
  design and management, 206
Communication protocols, 59
Communication satellites
  INTELSAT, 151
Computer communications, 8, 49
  future aspects, 351
  interconnection, 292
  social role, 356
  use of satellite communication, 144, 157
  vs verbal communication, 241
Computer networks, 49
  adaptive policies, 111
  administrative issues, 326
  airlines applications, 8
  banking applications, 8
  business applications, 1, 214
  channels, 37
  conferencing, 241
  costs, viii, 144, 145, 151, 215, 241, 313
  database system, 206
  design, viii, 44, 144, 145, 163, 206, 281
  deterministic policies, 111
  development, 27
  distributed, 281
  educational applications, 1, 8
  error diagnosis, 298
  evolution, 17
  facilities, 17
  failures, 111
  future developments, 349, 351, 361
  government applications, 1, 214
  hardware, 151, 163, 182, 274, 280
  heterogeneous, 281
  history, viii, 1
  knowledge workshops, 228
  legal considerations, 327
  limitations, 215
  logging in, 77
  management, viii, 326, 327
  markets, 333, 339
  measurement and control, 298
  military applications, 8
  national policy, 3
  nontechnical issues, 327
  on-line system, 214
  organizational issues, 339
  packet-switched, 111
  performance evaluation, 313
  powerful national force, 3
  programming, 246
  protocols, viii, 59, 77, 246
  public policy, 3
  real-time operation, 298, 351
  reliability, 132, 137, 215
  resource sharing, 117, 215, 260, 270
  resources, 151
  ring-switched, 49
  routing, 108, 111
  social considerations, 327, 356
  software, 182, 228, 274, 281
  standards, 326, 343
  state-of-the-art review, 37
  store-and-forward, 49, 117, 182
  supervisors, 274
  technology, 37
  usage modes, 17
Computer programs
  computer-aided design, 163
Computer-to-computer networks, 8
Computer utilities
  future aspects, 361
Conferencing
  use of computers, 241
Congestion, 107, 126
Control commands, 77

Cost-effective remote-access computing, 151

D

Data acquisition, 313
Data communication networks, 144, 163
  centralized, 49
  congestion, 126
  costs, 151, 164, 171
  design and planning, 164, 197, 206
  hardware, 171, 182, 197
  human communication, 241
  management, 164, 206
  software, 182
  standards, 343
Data processing
  administrative, 260
Data systems
  for telecommunication networks, 206
Direct terminal access, 280
Discipline-oriented centers, 260
Distributed multiprocessing, 214, 215
Distributed networks, 214, 259, 281
  reliability, 133
Distributed programming, 246
Domestic satellites, 157

E

Economic issues
  network design, 327
EIA
  Standard Committees, 343
Error diagnosis
  of computer networks, 298

F

Filing systems
  automatic, 214
Flow control, 95, 107, 117
Function-oriented protocols, 86
  see also Computer networks and networking, protocols
Future developments
  computing networks, 349

H

Heterogeneous networks, 281
Heuristic procedure
  for optimizing computer networks, 137
Honeywell DDP-516, 60
Host computers, 49, 60, 77, 86, 117, 270, 287, 299, 319
Human communication
  via data networks, 241
Hybrid telecommunications, 17

I

IMP
  see Interface message processors
Information processing, 44
INTELSAT, 151
Interconnected computers, 292
Interconnection
  of networks, 59
Interface message processors, 60, 77, 142, 280, 287, 319
  failures, 142
Internetwork routing, 95
Isarithmic networks, 37
ISO, 343
ITU, 343

K

Knowledge workshops, 228

L

Large-scale networks, 1, 107, 163, 361
Line cost
  see Line tariffs
Line tariffs, 144, 145

M

Man-computer interaction, 313, 356
Markets

Network strategies, 49, 164
Network taxonomy, 215
Network technology, viii, 1, 36
Network terminology, 1, 36
Network topology, 137, 197
Nontechnical issues
  network design, 327
North Carolina Educational Computing Service, 260

O

On-line systems, 214, 228
Overflow, 117

P

Packet switching, 17, 59, 95, 111, 126, 144, 163, 259
  cost, 151

design, 182
interconnection, 95
Private computers, 44
Process level communication, 95
Prognostication
on computer networks, 349, 351, 361
Program architecture, 197
Protocols, 59, 77, 95

R

Ready for Next Message, 60
Regional networks, 260
Reliability
of networks, 132, 133
optimization, 137
Reliable networks
with unreliable components, 133
Remote interactive systems, 86
Resource sharing, 27, 95, 117, 270, 333
RFNM
see Ready for Next Message
Routing, 95, 107, 108, 111

S

Satellite communication, 144, 157
future aspects, 151
Simulation systems, 246
Society
role of computer communication, 356
Software design, 182, 228
Specific networks, 259
Standards and standardizatioon computer networks, 326, 327, 343
Star regional networks, 260
System calls, 77

T

Tariffs

Utilization
of networks, 214

V

Verbal *vs* computer communication, 241
Voice networks, 163, 206

W

Whole/retail specification
in resource sharing networks, 333

Other IEEE PRESS Books

Clearing the Air: The Impact of the Clean Air Act on Technology
Edited by J. C. Redmond, General Dynamics, **J. C. Cook,** Teledyne Geotech, and **A. A. J. Hoffman,** Texas Christian University.
Contents: 18 reprinted papers.
1971 168 pages

Active Inductorless Filters
Edited by Sanjit K. Mitra, University of California.
Contents: 26 reprinted papers.
1971 232 pages

A Practical Guide to Minicomputer Applications
Edited by Fred F. Coury, Hewlett-Packard Co.
Contents: 28 reprinted papers.
1972 224 pages

Power Semiconductor Applications
Volume I: General Considerations
Edited by John D. Herndon, Jr. and **Forest B. Golden,** General Electric Company.
Contents: 67 reprinted papers.
1972 568 pages

Power Semiconductor Applications
Volume II: Equipment and Systems
Edited by John D. Herndon, Jr. and **Forest B. Golden,** General Electric Company.
Contents: 40 reprinted papers.
1972 344 pages

Semiconductor Memories
Edited by David A. Hodges, University of California.
Contents: 31 reprinted papers.
1972 296 pages

Minicomputers: Hardware, Software, and Applications
Edited by James D. Schoeffler, Case Western Reserve University, and **Ronald H. Temple,** General Electric Company.
Contents: 48 reprinted papers.
1972 376 pages

Digital Signal Processing
Edited by Lawrence R. Rabiner, Bell Laboratories, and **Charles M. Rader,** M.I.T. Lincoln Laboratory.
Contents: 57 reprinted papers.
1972 528 pages

Laser Theory
Edited by Frank Barnes, University of Colorado.
Contents: 37 reprinted papers.
1972 460 pages

Integrated Optics
Edited by Dietrich Marcuse, Bell Laboratories.
Contents: 35 reprinted papers.
1973 304 pages

Laser Devices and Applications
Edited by Ivan P. Kaminow, Bell Laboratories, and **Anthony E. Siegman,** Stanford University.
Contents: 29 reprinted tutorial-review papers.
1973 504 pages

Computer-Aided Filter Design
Edited by George Szentirmai, Cornell University.
Contents: 45 reprinted papers.
1973 448 pages

Key Papers in the Development of Information Theory
Edited by David Slepian, Bell Laboratories and University of Hawaii.
Contents: 49 reprinted papers.
1974 472 pages

Key Papers in the Development of Coding Theory
Edited by E. R. Berlekamp, University of California.
Contents: 43 reprinted papers.
1974 296 pages

Technology and Social Institutions
Edited by Kan Chen, University of Michigan.
Contents: 11 principal papers and other material from an Engineering Foundation Conference.
1974 224 pages

Automatic Test Equipment: Hardware, Software, and Management
Edited by Fred Liguori, Naval Air Engineering Center.
Contents: 28 reprinted papers.
1974 264 pages

Stability of Large Electric Power Systems
Edited by Richard T. Byerly, Westinghouse Electric Corporation, and **Edward W. Kimbark,** Bonneville Power Administration.
Contents: 59 reprinted papers.
1974 584 pages

Computer Communications
Edited by Paul E. Green, IBM Corporation, and **Robert W. Lucky,** Bell Laboratories.
Contents: 60 reprinted papers.
1975 624 pages

Nonlinear Networks: Theory and Analysis
Edited by Alan N. Willson, Jr., University of California.
Contents: 23 reprinted papers.
1975 408 pages

Data Communications via Fading Channels
Edited by Kenneth Brayer, The MITRE Corp.
Contents: 36 reprinted papers.
1975 520 pages

Literature in Digital Signal Processing: Author and Permuted Title Index
(Revised and Expanded Edition)
Edited by Howard D. Helme, James F. Kaiser, and **Lawrence R. Rabiner,** Bell Laboratories.
Contents: Permuted Title Index, Author Index, List of References.
1975 216 pages

Frequency Synthesis: Techniques and Applications
Edited by J. Gorski-Popiel, M.I.T. Lincoln Laboratory.
Contents: Applications of Frequency Synthesizers, Contemporary Frequency Synthesis Techniques, Direct Frequency Synthesis, Phase-Locked Loop Frequency Synthesizers, Digital Frequency Synthesizers, and Hybrid Configurations and Frequency Stability.
1975 184 pages

Magnetic Bubble Technology: Integrated-Circuit Magnetics for Digital Storage and Processing
Edited by Hsu Chang, IBM Corporation
Contents: Six chapters of specially-written material, plus 46 reprinted papers.
1975 712 pages

Energy and Man: Technical and Social Aspects of Energy
Edited by M. Granger Morgan, Carnegie-Mellon University
Contents: 63 reprinted papers.
1975 536 pages

Career Management: A Guide to Combating Obsolescence
Edited by Harold G. Kaufman, Polytechnic Institute of New York
Contents: 45 reprinted papers.
1975 448 pages

Selected Papers in Digital Signal Processing, II
Edited by the Digital Signal Processing Committee, IEEE Acoustics, Speech, and Signal Processing Society.
Contents: 63 reprinted papers.
1976 592 pages

A Guide for Better Technical Presentations
Edited by Robert M. Woelfle, E-Systems, Inc.
Contents: 35 reprinted papers.
1975 240 pages

Large-Scale Networks: Theory and Design
Edited by Francis T. Boesch, Bell Laboratories.
Contents: 2 original and 31 reprinted papers.
1976 496 pages

Optical Fiber Technology
Edited by Detlef Gloge, Bell Laboratories.
Contents: 49 reprinted papers.
1976 440 pages

Communications Channels: Characterization and Behavior
Edited by Bernard Goldberg, U.S. Army Electronics Command.
Contents: 65 reprinted papers.
1976 776 pages

IEEE PRESS books are distributed to nonmembers of the IEEE by John Wiley & Sons, Inc. The Wiley order numbers for this volume are 0-471-01955-0 (clothbound) and 0-471-01956-9 (paperbound).
